ABSTRACT

Information is provided from a follow-up study of 1980-81 graduates of St. Louis Community College at Forest Park, which was conducted to determine their educational and employment status and views of the college and its programs. Introductory material outlines the purpose, procedure, and scope of the study, and provides the survey instrument and cover letter. Next, the report presents data, based on responses from 71% of the 633 graduates surveyed, on the employment and educational status of graduates by college program; response rates by program; relationship of employment to Forest Park program; average comparative salaries by program; methods by which graduates obtained employment; number of graduates desiring placement assistance; proportion of graduates continuing their education, their reasons for continuing, and the college attended; and student evaluation of college programs and services. Where available, data obtained from previous studies are compared with 1980-81 findings. Then, an employment and educational analysis is presented for 26 career programs, 14 certificate programs, and 8 college-parallel programs, which includes information on employers hiring graduates, jobs held by graduates, transfer institutions, and graduates' major field of study. Finally, respondents' comments and advice for current students are presented. (HB)

1980-81 GRADUATE FOLLOW-UP STUDY

PREPARED AND CONDUCTED

BY

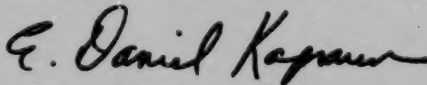

ROGER L. NIENKAMP
COORDINATOR FOR FULL-TIME
AND GRADUATE PLACEMENT
JULY 1982

COMMENTS

The 1980-81 graduate follow-up survey provides information pertaining to four hundred and forty-nine (449) graduates of the Forest Park Campus. This information should be of value to the Forest Park Campus Community in at least two ways:

- to assist in the review of various instructional programs
- and
- to provide information to be used in the educational/career counseling of students.

Obviously, surveys such as the graduate follow-up survey are designed to provide information concerning the *raison d' être* of any institution of higher learning - ITS STUDENTS - who ultimately become its graduates and whose successes reflect the academic excellence of the institution. Therefore, it is essential that these surveys reflect the best thinking of all segments of the institution. The critical nature of these surveys requires input from all primary reference groups into their planning, organization, and implementation. To insure these inputs, I propose the formation of a follow-up committee composed of a representative from each instructional division and the division of counseling to assist in the development of future graduate and employer follow-up surveys.

E. Daniel Kapraun
Director of Counseling

INTRODUCTION

PURPOSE

The culmination of the vocational education process is the placement and adjustment of individuals into desirable occupations of their own choice and for which they are trained, so as to serve the best interests of themselves and society.

Placement and adjustment then are the most realistic devices for measuring the effectiveness of instruction and counseling and represent the "bottom line" of vocational education.

Therefore, a follow-up study of all Forest Park graduates of school year 1980-81 was conducted to determine their location, employment status, post-secondary educational experiences, their reactions to campus instructional and counseling programs, and their suggestions for improvement.

PROCEDURE

The procedure or method of follow-up was undertaken by mailing a questionnaire. The graduate students were identified and a request was made, of Data Processing at the Administrative Center, for mailing labels. A cover letter was enclosed with the questionnaire to explain the purpose of the survey. About six weeks later, the initial mailing was followed by a second follow-up to those who did not respond to the first mailing. The second mailing was followed by a direct telephoning. Each graduate was telephoned at least three (3) times. (A sample of the questionnaire and the respective cover letters follow this introductory section.)

SCOPE

This study includes transfer programs as well as one and two-year career programs. Six hundred and thirty-three (633) graduates were surveyed. Four hundred and forty-nine (449) responses were received, a response rate of approximately seventy-one percent (71%).

SUMMARY

This is the fifth annual follow-up study to be completed at Forest Park. Data obtained from the five separate studies is compared where possible.

November 13, 1981

Dear Member of the Class 1980-81:

Every year on behalf of St. Louis Community College at Forest Park the Job Placement Office surveys the graduating class regarding their employment status and career plans. You, as a former student, can certainly help us to evaluate our efforts of the past and to plan for the future.

All information you provide will be kept confidential, only the summary tabulation of the responses is shared with faculty and students. Because this information is most useful in the career planning of undergraduate students, we urge you to help those who are following you by completing the enclosed questionnaire.

For your convenience, we have enclosed an envelope in which you can return the questionnaire to the college. A stamp is not needed. Your cooperation is greatly needed. Thank you for your time and attention given to this matter.

In addition, former graduates are always eligible for all Placement Office services. Graduates may at any time consult our listings of job openings, schedule appointments with employers, and receive referral to positions.

Best wishes for the future.

Sincerely,

Roger L. Nienkamp

December 15, 1981

Dear Member of the Class 1980-81:

In early November you were sent the enclosed survey form requesting information necessary for us to evaluate our career programs at St. Louis Community College at Forest Park.

This information is vital to the future graduates of Forest Park. Your answers on the enclosed questionnaire will assist the faculty and administration not only in planning new curricula offerings, but also in improving and refining existing ones.

Your cooperation is greatly needed. We will respect the confidentiality of your answers. Please take a few minutes to complete the enclosed survey form and return it to me in the enclosed postage-free envelope. We would like to have all responses returned by December 31, 1981, so we can finalize our study.

Thank you for your cooperation.

Sincerely,

A handwritten signature in cursive script that reads "Roger L. Nienkamp".

ST. LOUIS COMMUNITY COLLEGE AT FOREST PARK

1980-81 Graduate Follow-Up Survey

BACKGROUND:

1. Name _____ Student Number _____
2. Curriculum (Program) _____
3. Degree: AA _____ AAS _____ Certificate _____ Date of Graduation _____
(Mo./Yr.)
4. Current Address _____ Phone _____
(Street)

(City) (State) (Zip)

CURRENT EMPLOYMENT STATUS: (For those currently employed)

5. Employment status: (Check appropriate items)

- ☐ Employed full-time
☐ Employed part-time
☐ In Military Service
☐ Unemployed, and seeking employment
☐ Unemployed, and not seeking employment
☐ Other _____

6. If working, please complete the following from your present job:

Name of Company or Firm _____
Address _____
Your Position (Job Title) _____
Starting Date _____ Salary (per month) _____
(Mo./Yr.)
Briefly describe your job _____

7. Does the above position relate to your Forest Park degree or certificate received? Yes _____ No _____

8. How did you obtain your job? (Check all appropriate items)

- | | |
|--|--|
| ☐ On your own | ☐ Private Employment Agency |
| ☐ Forest Park's Placement Service | ☐ Newspaper Want Ads |
| ☐ Instructor's Assistance | ☐ Other _____ |
| ☐ Missouri Division of Employment | |

9. Is this your first job since graduation? Yes _____ No _____
(If no, please list other positions held on separate page.)

EDUCATIONAL STATUS: (For those currently enrolled in an educational program)

10. Are you continuing your education? Yes _____ No _____
11. If continuing your education, is it: (Check all appropriate items)

Full-time (12 or more hours)	()	Vocational-Technical School	()
Part-time	()	Military Specialist School	()
Four-Year College/University	()	Other	()
Two-Year College	()		

12. Name of School _____

Program and degree being sought _____

13. Is your current school program related to your Forest Park program?
Yes _____ No _____

14. Why did you decide to gain additional education? (check one)

_____ I tried to find a job, but couldn't
 _____ My career goal can only be attained through further education
 _____ I am interested in further education for my personal growth
 _____ Not certain
 _____ Other

EVALUATION: (For all graduates)

15. If you had it to do all over again, would you: (check one)

_____ Take the same major
 _____ Take another major
 _____ Take a liberal arts major, but add job preparation
 _____ Take a more job-oriented major

16. Which of the following do you think would have benefitted you in your transition from college to work? (check as many as apply)

_____ Help in job search methods
 _____ Help in choosing a career field
 _____ Preparation for a career field
 _____ Help in adjusting to the non-academic world
 _____ Other _____

17. Any comments or advice for today's students?

18. Do you need employment assistance at the present time? Yes _____ No _____
 If your answer is yes, contact:

CAREER PROGRAMS

ADVERTISING DESIGN & COMMERCIAL ART

ASSOCIATE IN APPLIED SCIENCE DEGREE

FOREST PARK GRADUATES: THEIR STATUS SIX MONTHS AFTER GRADUATION:

<u>1980-81</u>	<u>No. of Grads</u>	<u>No. Contacted</u>	<u>*EMPLOYED (FT/PT)</u>		<u>NOT EMPLOYED</u>		<u>*CONTINUING EDUCATION</u>	
			<u>Related Field</u>	<u>Unrelated Field</u>	<u>Seeking Employment</u>	<u>Not Seeking Unavailable</u>	<u>FT</u>	<u>PT</u>
	9	7	1	3	2	1	1	1

*A total of one graduate was attending school and working.

EMPLOYERS who have hired graduates:

James Hogan Art Studio	1
Self-Employed	1
Special School District of St. Louis County	1
United States Government/ Adjudication Division	1

JOBS held by graduates:

Commercial Artist	1
Janitorial Services	1
Substitute Teacher	1

SCHOOLS where graduates continuing their education:

UMSL	1
Webster College	1

MAJOR FIELD OF STUDY after Forest Park graduation:

Art	2
-----	---

AUTOMOTIVE TECHNOLOGY

ASSOCIATE IN APPLIED SCIENCE DEGREE

FOREST PARK GRADUATES: THEIR STATUS SIX MONTHS AFTER GRADUATION:

<u>1980-81</u>	<u>No. of Grads</u>	<u>No. Contacted</u>	<u>*EMPLOYED (FT/PT)</u>		<u>NOT EMPLOYED</u>		<u>*CONTINUING EDUCATION</u>	
			<u>Related Field</u>	<u>Unrelated Field</u>	<u>Seeking Employment</u>	<u>Not Seeking Unavailable</u>	<u>FT</u>	<u>PT</u>
	8	8	6	0	1	0	1	0

*A total of one graduate was attending school and working.

EMPLOYERS who have hired graduates:

Central City Standard	1
K-Mart Automotive	1
St. Louis Community College at Forest Park	1
St. Louis County Health Department	1
Sears	1

JOBS held by graduates:

Lab Assistant	1
Mechanic	4

SCHOOLS where graduates continued their education:

Pittsburg State University	1
----------------------------	---

MAJOR FIELDS OF STUDY after Forest Park graduation:

Automotive Technology	1
-----------------------	---

BIOMEDICAL ENGINEERING TECHNOLOGY

ASSOCIATE IN APPLIED SCIENCE DEGREE

FOREST PARK GRADUATES: THEIR STATUS SIX MONTHS AFTER GRADUATION:

<u>1980-81</u>	<u>No. of Grads</u>	<u>No. Contacted</u>	<u>*EMPLOYED (FT/PT)</u>		<u>NOT EMPLOYED</u>		<u>*CONTINUING EDUCATION</u>	
			<u>Related Field</u>	<u>Unrelated Field</u>	<u>Seeking Employment</u>	<u>Not Seeking Unavailable</u>	<u>FT</u>	<u>PT</u>
	5	5	5	0	0	0	0	2

*A total of two graduates were continuing their education and working.

EMPLOYERS who have hired graduates:

CGR medical Corporation	1
Dupont, Inc.	1
National Cash Register Corporation	1
St. Elizabeth Medical Center	1
St. Louis Community College at Forest Park	1

JOBS held by graduates:

Biomedical Technician	1
Field Engineer	1
Field Service Technician	1
Technician/Lab Assistant	1
X-Ray Service Trainee	1

SCHOOLS where graduates continued their education:

Bell & Howell Electronics School	1
St. Louis Community College at Forest Park	1

MAJOR FIELDS OF STUDY after Forest Park graduation:

Electronic Engineering Technology & Microprocessors	2
--	---

CHILD CARE ASSISTANT

ASSOCIATE IN APPLIED SCIENCE DEGREE

FOREST PARK GRADUATES: THEIR STATUS SIX MONTHS AFTER GRADUATION:

<u>1980-81</u>	<u>No. of Grads</u>	<u>No. Contacted</u>	<u>*EMPLOYED (FT/PT)</u>		<u>NOT EMPLOYED</u>		<u>*CONTINUING EDUCATION</u>	
			<u>Related Field</u>	<u>Unrelated Field</u>	<u>Seeking Employment</u>	<u>Not Seeking Unavailable</u>	<u>FT</u>	<u>PT</u>
	16	12	6	0	1	1	0	2

*No total of two graduates are attending school and working.

EMPLOYERS who have hired graduates:

Clayton Child Center	1
Grace Methodist Pre-School	1
Maplewood-Richmond Heights School District	1
Nursery Foundation of St. Louis	1
St. Louis Housing Authority	1
Salvation Army Residence for Children	1

JOBS held by graduates:

Assistant Teacher	2
Child Care Worker	1
Director	1
Teacher	1
Teachers's Aide/Secretary Aide	1

SCHOOLS where graduates continued their education:

UMSL	2
------	---

MAJOR FILEDS OF STUDY after Forest Park graduation:

Child Care	1
Secondary Education	1

CHILD DEVELOPMENT ASSOCIATE

ASSOCIATE IN APPLIED SCIENCE DEGREE

FOREST PARK GRADUATES: THEIR STATUS SIX MONTHS AFTER GRADUATION:

1980-81	No. of Grads	No. Contacted	*EMPLOYED (FT/PT)		NOT EMPLOYED		*CONTINUING

**COMMENTS AND ADVICE FROM
1980-81 GRADUATES
FOR TODAY'S STUDENTS**

CAREER PROGRAMS - Associate in Applied Science

COMMENTS AND ADVICE

ADVERTISING DESIGN AND COMMERCIAL ART

- To make sure **that** you have all the required **classes** to graduate **before** you **graduate**.
- **Today's** students should save money if possible to supply financial **security** while seeking a job, and that will last until then.
- Onward and upward.
- Even though the assignments may seem dumb do them anyway and work you put out will pay off later.

AUTOMOTIVE TECHNOLOGY

- Make sure that you really love what you intend to major in.
- Pay attention and put forth much effort because you will need it when you get out.
- To see if the field that they want to go into pays what they want and has job openings.

BIOMEDICAL ENGINEERING TECHNOLOGY

- Forget about grades; learn the subject.
- The more knowledge the better. Everything is related for some use.
- Anything learned will help in future even if it doesn't seem so now.
- Try to obtain a part-time job in career related field while attending school.

CHILD CARE ASSISTANT

- Receive a good education and work in a field that is rewarding to yourself.
- Students should apply for a job before graduation and please use resumes.
- Start attending school sooner.
- Ask for advice in choosing a good career, in which there would be a 95% chance of finding a good job.
- Child care workers are terribly underpaid but its a job and jobs are very hard to find.

CHILD DEVELOPMENT ASSOCIATE

- C.D.A. is a terrific program and should **definitely be** continued and strengthened.
- Be sure to apply for scholarships. Thanks to a counselor at Forest Park I obtained a scholarship at Webster College.
- Day care teachers don't get paid very much, but if you love children you will enjoy working with them no matter what your salary is - just make sure your **husband** makes good money.
- **Study**, work hard to achieve your goal, do not give up. Education is very **rewarding**. Also, believe in yourself.
- **Studies** can be fun if you are really interested in the curriculum you are studying for.
- Know your salary potential in your career field.
- Take classes or curriculum which apply to your job future.
- Be sure to find out the courses that you take are transferable.

CLINICAL LABORATORY TECHNOLOGY

Page 2

- Get as much as you can out of your studies.
- Clinical Lab Technology is a good program and good jobs are available.
- Make good grades - it really helps.
- I recommend that if you intend to go to a junior college, the technical fields are the most promising or pre-med, pre-dentistry, etc., if planning to attend a university.

CRIMINAL JUSTICE - CORRECTIONS

- Get all the education you can.

CRIMINAL JUSTICE - LAW ENFORCEMENT

- I think it is essential that today's student thoroughly understands what careers and advancement opportunities are available, prior to making a decision as to choosing a course of study.

DATA PROCESSING

- Continue your education.
- Students should take some sort of aptitude test before enrolling in Data Processing curriculum.
- Explore your interests and talents. Keep your grades up. Plan. Make decisions.
- Learn all you can about job search methods and keep applying them.
- Maintain a good GPA. Low ones are hard to overcome and follow you.
- Stay in school until graduation.
- Learn as much as you can and get a clear understanding of subjects you are taking.

DENTAL HYGIENE

- Try to get as much practical information about your chosen field as possible, i.e., salary, benefits, advancement opportunities. Start looking for a job early, before graduation.
- Take as much time as needed to find out what you want to major in.
- Forest Park Dental Hygiene is an excellent school and I have been well prepared for my career. Thanks!
- Try to know if demand for your skills before you start. Job market tight now because of economy, hard to get that first job because "no experience" - experienced ones get first chance.
- Even a two year college is worth going to. If you're interested in health fields go for it.

ELECTRONIC ENGINEERING TECHNOLOGY

- Learn as much as possible during the short time you have.
- The present teaching staff in electronics department is excellent.
- The Job Placement Office was very helpful.

FIRE PROTECTION TECHNOLOGY

- Research vocations, choosing one that offers the most advancement and monetary rewards, as well as most personal fulfillment and take classes toward this goal.
- Enter a curriculum in which you are interested. Don't go to college just because it is what you are supposed to do after high school.

- **Study.**
- Just hang in there - it does pay.

HOSPITALITY RESTAURANT MANAGEMENT

- School is good, but **remember** a little hard work never killed anybody!
- Doing two programs at **once** was a smart move. I am very marketable. It wasn't even hard because I also work 50+ hours each week.
- Although I am not employed in my major, I frequently use what I learned. I'm glad I attained the major that I have, just for the sake of the education itself.
- Finish your school - don't be afraid of a change!
- Take financial accounting.
- If you're not sure what you want yet (career-wise), don't dedicate two years to any specific program.
- Take as much accounting as you can!

HUMAN SERVICES

- I would advise any student to take their education seriously. It is time to set aside joking and playing around. It's time to take their books seriously. And most of all strive to have a good attendance record.
- I suggest make preparation for a career field before choosing curriculum.
- Today's job market is poor but don't get discouraged. Look at your employment as experience and shop around for a more suitable position while you are gaining experience in a position you may have to take for survival. Set your goals high!
- Keep on striving until you reach your goal. Don't give up.
- Continue education, even with job market as is, you may not get a job right after graduation, but you will always have the knowledge.
- Encourage **them** to continue and learn all they can. I've never enjoyed anything more than Forest Park.
- After quitting high school I felt that my world was at an end. The G.E.D. changed my life by **opening** doors that I thought were closed, example, college.

INDUSTRIAL ELECTRONIC TECHNOLOGY

- Do a **lot of homework** - you pay for all you learn.

MASS COMMUNICATIONS

- Choose courses that you have a **definite interest** and **talent** in - don't choose a major that you won't have fun taking.
- Take learning very seriously for tomorrow you may be sorry you didn't.
- Take classes that will help you get a job.
- Be attentive in class.

MECHANICAL ENGINEERING TECHNOLOGY

- Students in the M.E.T. program who intend to go on to a four year college should skip the tech. math and take the regular math courses (trig., calculus, etc.)

MEDICAL SECRETARIAL

- Do not rush into a decision about a career or major without first researching all the alternatives. Develop good habits and characteristics while in school such as: punctuality, efficiency, neatness, willingness to work and learn, patience and cooperation.

- Be serious minded about all phases of school and work.
- Only perseverance in study will get students to their goal.
- Don't give up...keep on keeping on.
- Health care is where the jobs are. What is taught in school and what you experience on the job are two different worlds. Burn-out is a strong factor.
- Don't count the years, do your work semester by semester and it will go by faster than you can blink an eye and learn what is taught don't memorize.
- To pursue a career as soon as the completion of high school. If possible don't wait until one has taken on the role of parent and wife.
- You'll get out of your education the amount of work you put into it.
- I picked a field with excellent job opportunities. I would suggest students pick subjects/fields in such areas rather than vague, general easy subjects. Too many students pick easy subjects to get good grades with high grade point averages without thought as to if those subjects will **help them get a job.**
- If they have a goal - "don't stop or give up".

RADIOLOGIC TECHNOLOGY

- Be positive and assertive, don't wait for things to happen, make **them** happen.
- The most important steps for success are to follow your goals, have confidence in yourself, and to never give up.
- Take your elective courses early.
- Never start what you can't finish because there are too many things in life to do.
- If you would like to be around people and do something to help them get well, an x-ray technologist is **what** you may be looking for.
- Decide what you want to do and do it!
- Make a good choice in selecting your **career** so you don't waste your years in college.
- Get some of the basic courses out of the way before starting the radiology program because it will be easier on the student.

RECREATIONAL LEADERSHIP

- Not to be discouraged in continuing their education and most of all stay in school.

RESPIRATORY THERAPY

- Due to personal experience, I would advise those students who intend to work full-time while taking a full course load, to reconsider.
- Be much more conscious of college transferable courses for future universities.
- Take all the liberal arts courses before entering the program.
- If the student has to work full-time he should get some of the classes that are required out of the way before taking courses related to major.

SECRETARIAL

- If you are taking secretarial courses working towards an AAS, take your shorthand **courses** in your **third** and fourth **semesters** so you will not lose your speed before you enter the job market.
- Education is a valuable tool, so use it wisely if you want to **succeed.**
- Just **get a good education**, try to make something out of yourself, **this world is** rough, time waits for no one.

- Jobs today are scarce so try to pick a career goal that you can be sure that you are guaranteed a position in this job orientated world.
- Training is very important to cope with the business world (at any age).

TOURISM

- Forest Park is a good school for preparing a student with a useful degree.

CAREER PROGRAMS - Certificates of Proficiency

BUSINESS ADMINISTRATION

Page 6

- No comments.

CHEF'S APPRENTICESHIP PROGRAM

- Take other courses besides the required ones. I wish I had at the time. Computers/Computers/Computers.
- Gain as much working experience as you can in your field. This helps to learn application of studies.
- Forest Park has good programs and teachers. The hardest thing for me was deciding what I wanted to do the rest of my life.

CLERK-TYPIST

- Do better than me.
- Would be to choose a career wisely, consult with a counselor and weigh things with a positive attitude. Consider tomorrows jobs, competition, salaries, etc.

CRIMINAL JUSTICE: CORRECTIONS

- No comments.

CRIMINAL JUSTICE: LAW ENFORCEMENT

- No comments.

DATA PROCESSING

- No comments.

DENTAL ASSISTING

- Hang in there.

ENGINEERING DRAFTING

- The rewards for the learned ones are fulfilling, not only in the job market, but in everyday life as well.

FIRE PROTECTION TECHNOLOGY

- Stay in school until you have achieved the goal that you have set for yourself. Do not become financially overburdened prior to graduation.
- My degree was helpful for advancement.
- Try to obtain all information you can about a career before you make a career choice.
- If they are undecided it is best to attend the junior college to help make a decision. I would recommend to go straight from high school to keep your study habits.
- Make sure that you pick the right major.

MEDICAL TRANSCRIPTION

Page 7

- **Make** sure that you pick **the right** major.

PLUMBING DESIGN TECHNOLOGY

- No comments.

RESPIRATORY TECHNOLOGY

- No comments.

SURGICAL TECHNOLOGY

- **To make** sure what they have chosen is exactly what **they** want to put **four** years of school in.
- Find a vocation that makes them happy - that they'd enjoy doing...and one **that** is in **demand**.
- **Stay** in school, it's hard but look for success in the future. You can be only what you strive and work hard to achieve!

TRANSFER PROGRAMS

BUSINESS ADMINISTRATION

- Graduation is a key **ingredient** for employment and advancement in the job market in **today's society**. One must not expect to be a winner without it.
 - Determination.
 - Take a broad selection of electives.
 - Try to obtain the highest grade possible, you will need the information later.
 - Get a business degree.
 - To observe the job market and determine what's available and train for that goal. Job security is needed at this time of recession.
 - A fulfilling career still depends on how one applies himself with the proper credentials.
 - The importance of having a degree becomes clearer when you are out in the working world. Seriousness and dedication to studies and to yourself pay off in the long run.
 - Select a career field that will bring personal satisfaction. Money shouldn't be the only factor for a career goal.
 - Be persistent in pursuing **and** maintaining employment and contacts related to major. Acquire alternate career, interests, etc.
 - Put off work as long as possible, you will work the rest of your life and it's too hard to work and be a good student.
- Data Processing seems to be the upcoming field.

ENGINEERING SCIENCE

- **Forest** Park helped me **greatly** in continuing my **education** at U.M.R. The community college system has a lot to offer if only you will reach out and accept it but also it takes you to put your best foot forward to graduate.
- No matter what your major, be proficient in English (no one will hire you for a responsible position if you can't speak, write and read at a college level).

FINE ARTS

- Don't give up on yourself, keep going and one day your time and effort will pay off.

- Plan your **curriculum** wisely, **aim** for your goals but don't be upset if you change your interests, because college helps and guides you towards your **true** interests.
- **Be persistent**, take drawbacks in stride, and put them in the right perspective. And most of all prepare for more than one career.
- Every student should do his or her best in the fields they choose to take. You must learn everything you can in order to be a success.
- Stay in school to get a degree so in the future years you wouldn't have to struggle too bad.
- The road is hard but in the end its all worth it.
- Anything you want, you have to work hard for it.
- Know yourself first then you can successfully coexist with others in this world.
- **My** present job was obtained **because** of the credits I received at Forest Park. I lost a lot of **credits** in the **transition** to Harris. The biggest mistake I made was not making up my mind.
- Take a good solid load of **General Education** classes. Mostly a good background in the sciences and math.

LIBERAL ARTS

- **Stick** with what you're doing and don't let anyone try to dissuade you from your chosen goal.
- Attempt to get experience and market a job skill which will guarantee an income.
- Don't take the junior college too lightly - it's a good and **important start**.
- Go for the education and create your own luck when looking for employment.
- Take advantage of your opportunities.
- Go out into the community and talk with people that are in the field in which you are working toward.
- Try to do your best. Keep a good grade point average. Have good study habits.
- **I** would advise students whose mind isn't made up on what career **they** want to pursue to think about something that would enable them to become **self-employed**.

LIFE SCIENCE

- St. Louis Community College at Forest Park offers a practical and excellent educational opportunity.

MATHEMATICS

- No comments.

MUSIC

- If you go to a two-year college, it is better for people who haven't **had** any training in their field, to take classes and **try to** work and stay in school.
